

Big Brothers Big Sisters of NH & VT

We believe every young person deserves someone in their corner. At Big Brothers Big Sisters of NH

& VT, we create and support evidence-based mentoring relationships that ignite the power and promise of youth. Young people today face many adversities like food insecurity, mental health challenges, and parental incarceration. But, having a consistent, caring, supportive adult in their life can help young people realize their full potential.

How you can help + support:

It takes LITTLE to be BIG! If you have a few hours each month, you can help change a young person's future. Become a mentor today and help make a difference in a child's life. Visit bigsnhvt.org to learn more.

Proud moment:

Research shows that young people who experience quality mentoring are more likely to stay engaged in school, pursue postsecondary education, and experience stronger economic outcomes as young adults!
