Milton Family Community Center

Proud moment:

MFCC meets people in our community where they are and helps families access the support they need.

Milton Family Community Center (MFCC) is a state-designated Parent Child Center and nonprofit organization serving individuals and families in Milton and surrounding communities. We strengthen families and build community through early childhood education, family support services, food access programs, and connections to essential resources. Our goal is to empower individuals, support children's healthy development, and help families access the services and opportunities they need to thrive.

How you can help + support:

There are many ways to support MFCC, but our greatest volunteer need right now is regular help with our Food Shelf and Fresh Rescue Program, which served over 1,300 people last year.
