Featured Nonprofit

Proud moment:

Pathways Vermont provides community-based mental health services and collaborative learning that center people as the experts of their own lives.

Since 2010, Pathways Vermont has supported thousands of Vermonters in the most difficult and distressing times in their lives - when experiencing mental health challenges, homelessness, or exiting incarceration. We support people 18 and older who have fallen through the cracks of our system of care and live in cycles of chronic mental health and homelessness struggles. Our programs provide access to housing, mental health support, and a sense of choice, community, and connection.

How you can help + support:

You can support Pathways and get involved at pathwaysvermont.org/get-involved.
