TRAILHEAD
— TECHNOLOGY CONSULTING —

LAKE CHAMPLAIN CHAMBER | MEMBER NEWS

Let's talk small-business technology.

Hi, I'm Justin Bennett, founder of Trailhead Technology Consulting. I recently joined the Lake Champlain Chamber and would love to connect with local small-business owners to hear how technology is working for them.

Here's what I'm curious about:

1. **What tools or systems are making work easier?**
2. **What's frustrating, unreliable, or taking more time than it should?**
3. **What do you wish were simpler in your day-to-day operations?**

No sales pitch - just a conversation. If you're open to connecting, send me a message or visit my website. I'd enjoy hearing what you're building and what technology could be doing better for your business.

Let's connect
